

## LED ORIGAMI

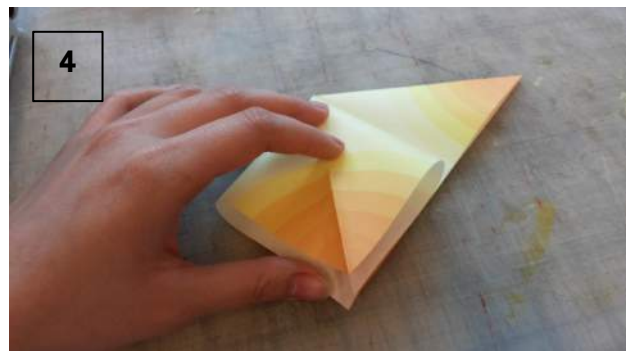

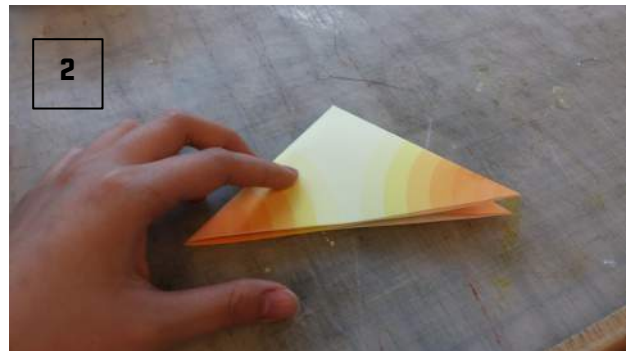

<https://www.youtube.com/watch?v=8mo78XPtalc>

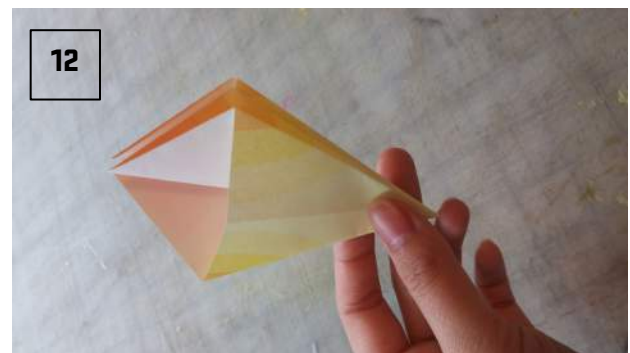

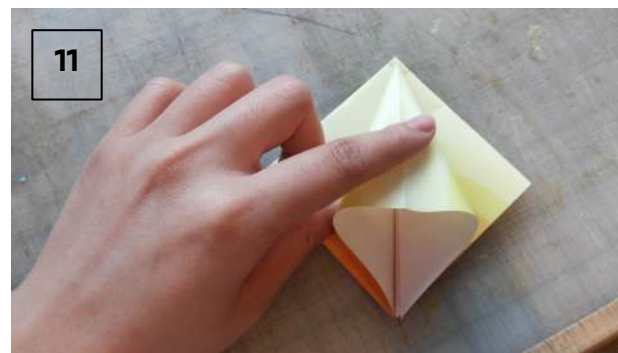

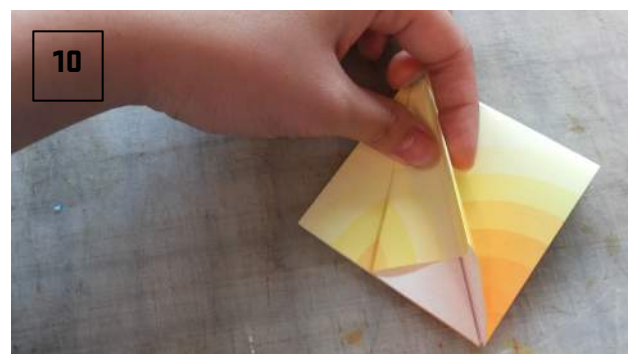

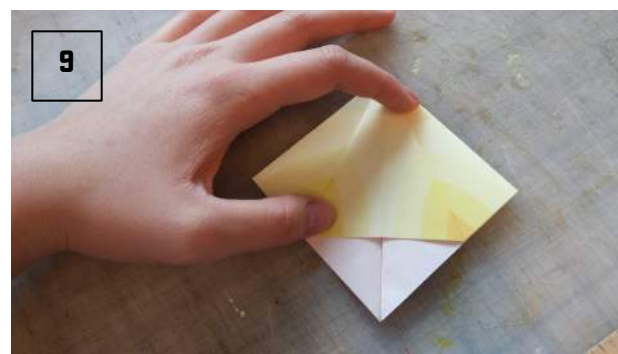

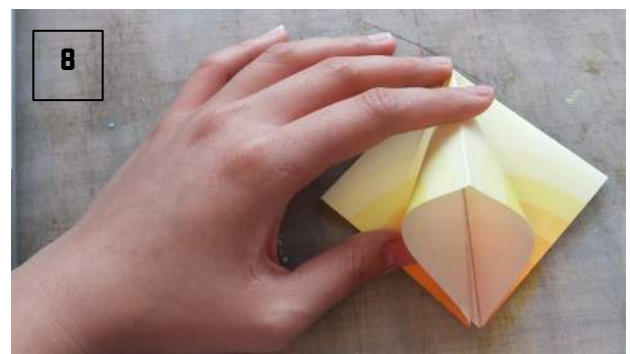

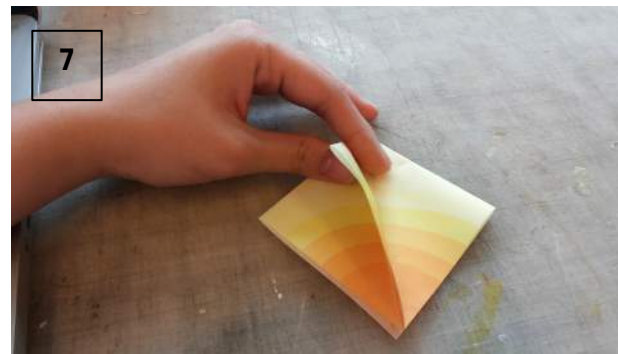

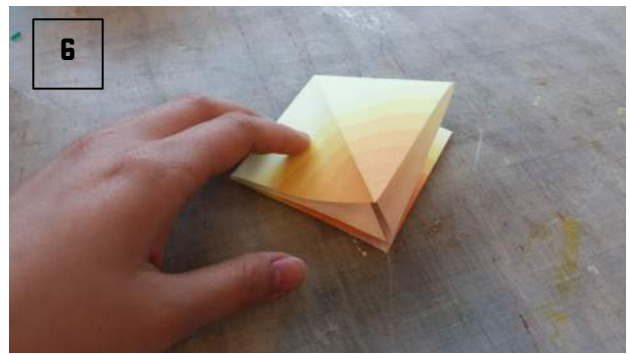

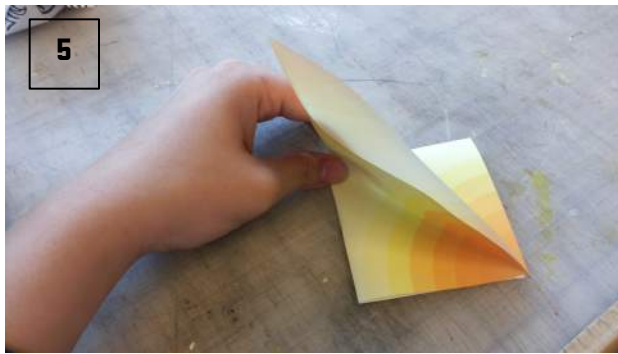

### MATERIALS

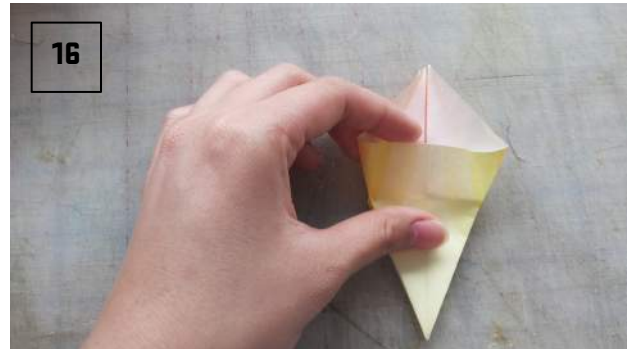

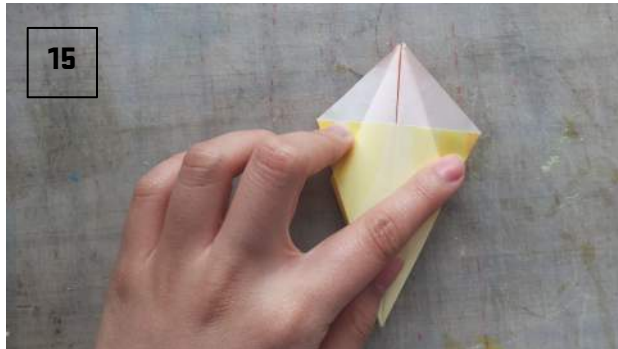

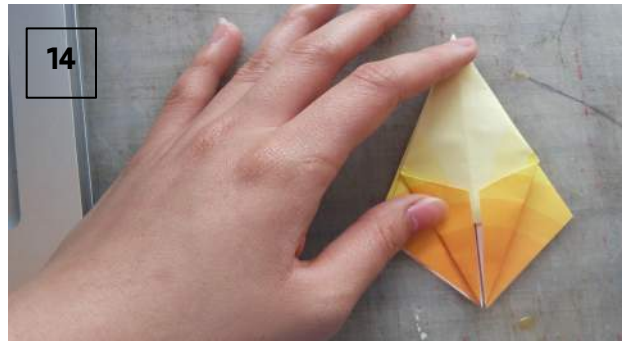

- Origami Paper
- Assorted LEDs
- Coin Battery
- Electrical Tape
- Regular Tape

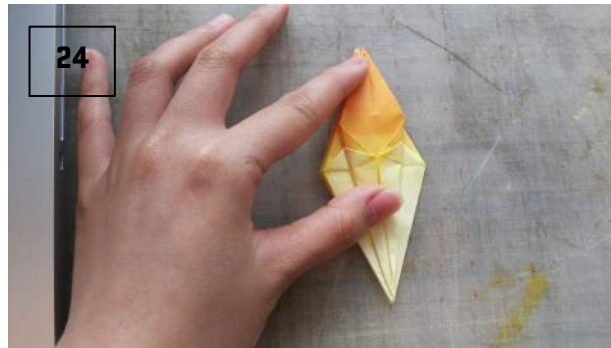

### TO MAKE THE FLOWER

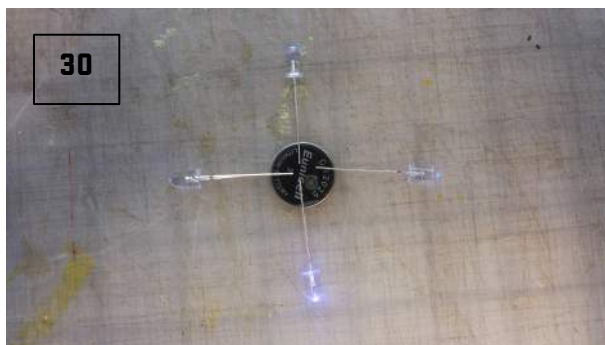

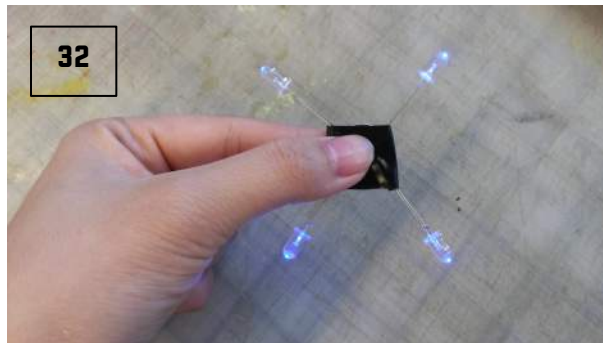

## TO ASSEMBLE THE ORIGAMI FLOWER

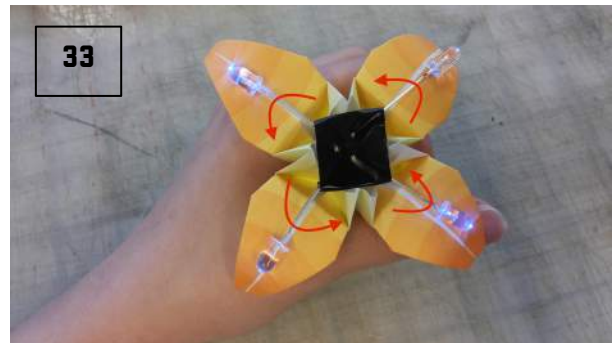

Check to see that all of your LEDs work by attaching them to the coin battery.

Cut about 1 inch of electrical tape and stick onto the LEDs. Wrap the extra around the back.

Place the taped LEDs into the opening of the flower.

To prevent the LEDs from falling off, tape over the LEDs using regular tape as marked above.
